An Autogrill Company 

For Immediate Release

Crêpeaffaire Lands at Stansted Airport *Popular eatery's first airport café now open*

London, UK—HMSHost Corporation has added a seventh United Kingdom airport to its portfolio with the opening of Crêpeaffaire at Stansted Airport. HMSHost, a part of Autogrill Group, is a top food and beverage provider in 15 European airports, with locations in key UK airports including London Heathrow, Manchester, Jersey and now Stansted. Crêpeaffaire is located in the pre-security departures hall.

"This exciting new addition to Stansted's retail offer complements perfectly our existing mix of good quality catering outlets. I'd like to wish HMSHost every success with their new Crêpeaffaire venture, which I'm sure will prove very popular with passengers and staff alike," said Zoe Farmer, Stansted's head of terminal retail.

The new Crêpeaffaire is the first location for the brand in an airport.

"It has been a pleasure to work with Crêpeaffaire to craft their menu and store for a busy airport," said Michiel Reuvers, HMSHost's Senior Director of Business Development. "We are confident that travellers will find the broad selection of both sweet and savoury crêpes a welcome addition to their choices at Stansted."

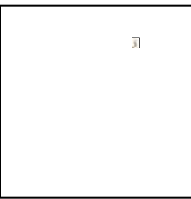

The popular crêperie opened its first shop in London in 2004, serving freshly-baked crêpes using organic flour and natural ingredients, as well as organic coffees, smoothies, ice cream and milkshakes.

Since its very first opening, Crêpeaffaire has become known for its freshly prepared Continental and French menu, offering a quick breakfast, lunch or tasty snack created to order. A range of crêpe fillings includes traditional ham and cheese, tasty chicken and vegetables, and fresh fruit with Belgian chocolate.

"We are excited to team up with HMSHost to bring the Crêpeaffaire concept to Stansted. Our brand is ideally suited to an airport's fast-paced and international environment," commented Daniel Spinath, Crêpeaffaire's founder and Managing Director.

Stansted is a hub for a number of major European low-cost carriers and serves more than 100 destinations. It is the third-busiest airport in the United Kingdom and the third largest airport serving the London area after Heathrow and Gatwick. Approximately 19 million passengers travel through Stansted each year.
